1. The HR director tells you that you have to spend your entire day on an important security training, while the project milestone is approaching and you are behind schedule. What do you do?

1. Refuse to attend the training
2. Attend the training
3. Find a better job
4. Change the schedule

#matrix

2. You develop a Java (trademark of Oracle) software for your diploma project. Which stakeholder doesn't belong to this list?

1. Oracle
2. University
3. Your professor
4. Microsoft

#positive #negative

3. A programmer from another project comes to you, asking to help them in their project. What do you do?

1. Help them
2. Help them, but in free time
3. Refuse, focus on your own project
4. Ask your team leader

#subordination

4. You just joined a company, they gave you a workspace, a computer, but didn't tell you what to do. What do you do?

1. Just sit and wait
2. Ask your boss to give you a task
3. Write some code for GitHub
4. Start looking for a second job

#chaos

5. Your team develops a crypto software. Which one is the least dangerous stakeholder?

1. Friend
2. Government
3. HR Department
4. Amazon Web Services

#motivation

6. What do we care least about regarding a stakeholder?

1. Interest
2. Influence
3. Legitimacy
4. Location

#classification

7. A client gets hysterical and demands project termination. Most probably, what did you do wrong?

1. Didn't hire the right people
2. Didn't push programmers hard enough
3. Didn't report status regularly
4. Didn't invite the client to project meetings

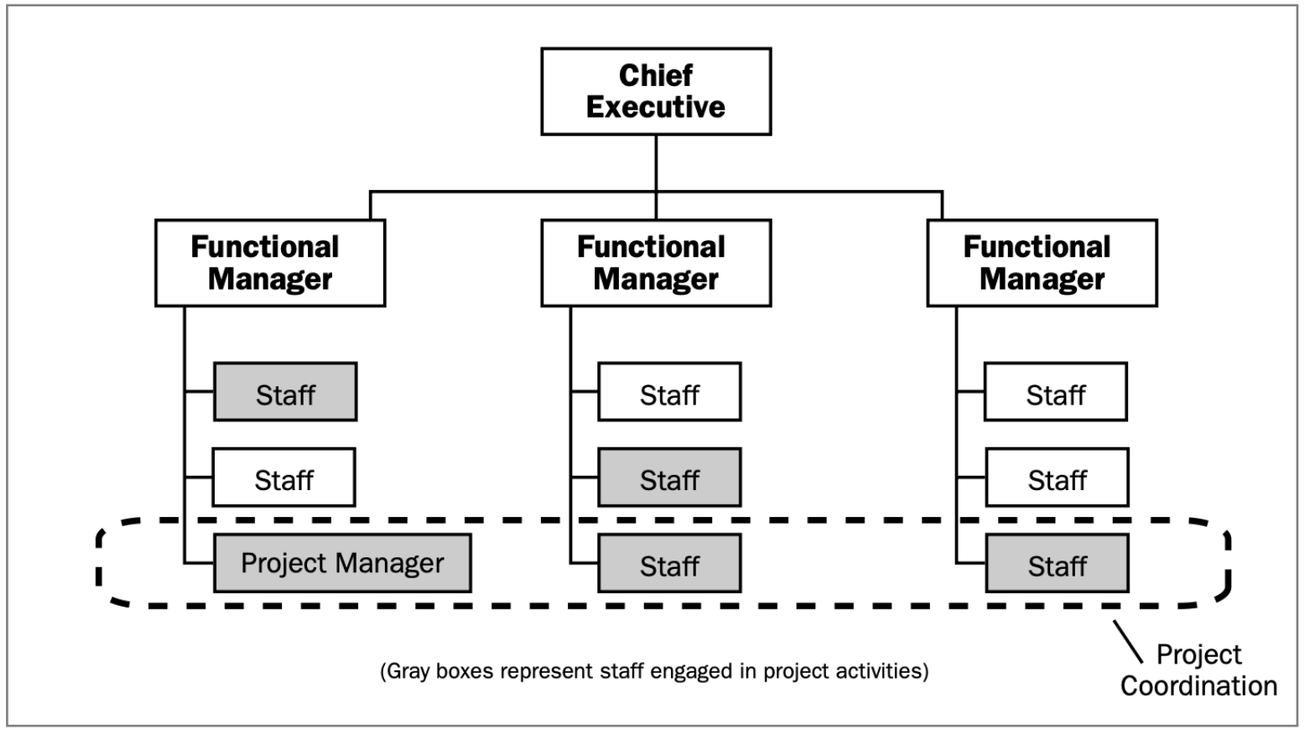

#engagement

8. When actively listening to a complaint of a client, what do you do most?

1. Smile
2. Agree
3. Explain
4. Ask

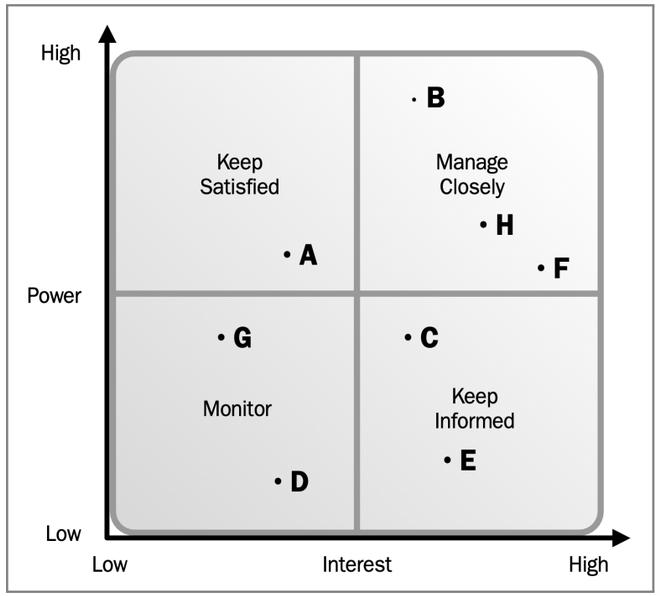

#argument

Balanced Matrix Organization
